Job Costing/Accounting Process/QuickBooks Syncing

*** **This should be done Daily at end of day*****

1. Go to **Orders**.

2. Click **Orders** change **Status** to **submitted** and change **Costing** to **not done**.

Order #	Install Date	Client	Status	Paperwork	Payment	Commissi...	Labor	Costing	QBO Sync	QBO
2021-05-04	2020-05-04 09:18am	Emily Emerson 925 Lincoln Ave, Dubuque, IA	open	incomplete	not paid	not paid	not paid	not done	Filter	
2021-05-01		Adam Cory 4532 S Shrewsbury Lane, Dubuque, IA	submitted	incomplete	not paid	not paid	not paid	not done		

Doing this Shows all **Orders** that need to be **Job Costed** and moved over to **QuickBooks**.

If an **Order** still has Equipment that needs to be installed, wait to **Job Cost** until all **Jobs** are completed. This ensures we are calculating all time and material, being put into the **Order** as well as getting the most accurate GPM.

3. Click the Edit Button on the left of the Order and click **Job Costing**.

If any of your Labor or Equipment cost in this Order is incorrect, **Overrides** are available. Click **Add Overrides** (a Pop-Up will Show you how to add the Overrides to the **Job Costing**) When completed, Click **Finish Overrides**.

Once everything is updated you can change **Payment Status** if necessary, and **Mark Complete**.

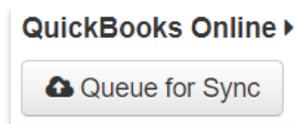

You will be able to update the **Status** of the **Job(s)** from here and the **Call**. If there are other **Jobs** tied to the **Call** that need to stay open you can keep the **Call Open** or update appropriately.

Always be sure to close out all Jobs if they are complete or the Techs will have an abundance of Job in their Clock in List because they are not Closed.

QuickBooks Online: Click Queue for Sync, Orders will sync every hour

QuickBooks Desktop: Typically, Orders will be set to sync within 2 hours

Reconciliation

- ThermoGRID to QB– Verify all submitted/Costed orders in ThermoGRID are in QuickBooks and verify payments.
- QB to Bank Rec – This means verify all received payments in QuickBooks are in the bank account. The AR must be less than 1% and less than 30 days.

Closing

Close the month by the 5th or 8th business day, no later than the 15th

Example: July should be closed by no later than Aug 15th

NOTES:

If at any point in **Job Costing** you feel like your **GPM** or % are too Low/High, Labor hours VS Clocked Hours are too Low/High or any other business practice discrepancies. Please Contact **ThermoGRID** for training on how to Edit your Catalog, GPM or any other Questions you may have.

Job Costing: Comparing the price set for equipment, parts, labor etc. to the Order that was Sold. This *can* be compared to the invoice received from the supplier and also time sheets for hourly techs.

- ALL Service Orders should be **Submitted** if completed or have **Status** changed by the Technician as long as work was done. If **Service Orders** are **open**, find out why Internally. Change appropriately

(Note: As a Standard if an **Order** is created on a **Job** and is not Complete, such as a **service** estimate, the **Order Status** *should* be changed by the Technician/Salesman on site to **No Sale or Advance** if the client did not move forward at that time.)

- All sales Orders that are **SOLD** are **submitted**.

If this was an Estimate, the Sales Rep will change the **Order** to a **No Sale/Advance** or **contact a member of Admin** to **update the Order status**

If **Sales Orders** are **open**, find out why and change appropriately.

(Note: As a Standard, if an **Estimate** is created on a **sales Job** and is not sold, the **Order Status** *should* be changed by the Salesman on site by contacting the office via phone or Tech Status to **No Sale or Advance**. If the Salesman sold and did not submit, make sure they understand the process and you may submit.)

If an Order needs to be submitted click, the Edit Button  and click **Submit** at the bottom of the dropdown menu on the **Orders** page. Click on the Check Box and **Submit Order**
